

Objective

Ambitious Undergraduate student passionate about data analysis, strategic problem-solving, and business strategy, seeking an internship opportunity to leverage analytical, critical thinking, research skills and collaboration skills in deriving insights, optimizing processes and contributing to data-driven, impactful business solutions.

Project Experience

Simulated Case Study:- HR Layoff Strategy

March 2025

- Analyzed employee job performance data during a simulated budget constraint scenario.
- Conducted a comparative analysis across departments to identify the least performing employee
- Proposed a structured layoff plan with ethical considerations- recommended a 2-3 months salary in advance.

Positions of Responsibility

- Volunteered at an International Conference in St. Joseph's University.
- Participated in Business events and case Competitions.
- Developed strategic initiatives and fostered collaborations through participation in business case competitions
